

Fit out/Senior/Site Managers - Interiors

Well established business that values and looks after staff

The company

We've been extremely successful in the corporate, retail and government sectors where people are relaxing, meeting, exercising or shopping in spaces we've created. This growth is because we care about our staff and we are great at what we do.

Our Vision

We offer fast, well-managed fit outs for retail and commercial projects. On each project, we're helping clients and designers balance tight timeframes, budgets and creativity. We respond quickly to challenges that can arise on any construction project. We strive to achieve our company values of reliability, quality and teamwork.

How we work

We use the latest project-management software. We employ our own team of quantity surveyors to keep costs under control for clients. We also run a 'tight ship' when it comes to workplace safety.

Our directors are involved in the day to day running of both the company and client projects, with the entire team sharing their vision of developing strong, long-term working relationships with everyone from the architect and designer through to the sub-trades and the end client.

Your new role

Due to an explosion on assignments we need 4 seasoned Site Managers to run smaller quick turn-around projects or be a part of a significant build alongside others. You must have great construction management skills and a track record of delivering successful projects right from planning to execution on time and on budget.

What you'll get in return is an excellent remuneration package depending on your experience, on-going support and development along with great career experiences and the opportunity to say that you work for an employer who really values you and your input.

What now?

Do we connect? If so, then call our HR advisor, Ross Henderson, on 027 2940301 or email him on ross@hrcontracting.co.nz. Do it now!
